Art Unit: 2133

The information disclosure statement filed 16 January 2007 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. However, see the PTO-892, which forms a part of this action wherein this reference is cited to make of record that it has been considered.

Claims 1-31 are allowed.

The following is an examiner's statement of reasons for allowance: The reference by Wheatley discloses a system which uses a $\frac{1}{2}$ rate, constraint length 5 convolutional code (2.5.1, page 7) which is decoded by means of a Viterbi decoder (3.1, page 14). This is distinct from applicants' claimed invention which uses a low density parity check (LDPC) code which is decoded by the use of message passing between check nodes and bit nodes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
